

2010

Koza Altın İşletmeleri A. Ş.

Operational Report & Financials

30 JUNE 2010

Our Strategy

Our goal is to develop our portfolio of existing gold assets and find, develop and selectively acquire gold projects in Turkey to grow our resource base and maximise profitable production.

This goal aims to capitalise on our position as the leading gold producer in Turkey, our hub operating strategy and our track record of successfully growing resources and production.

We also seek to provide leadership in safety, stewardship of the environment, including responsible rehabilitation of the completed areas, and social responsibility to local communities.

Koza Gold is a leading Turkish gold mining company with a track record of sustained profitability underpinned by low costs. We produced 123koz of gold in first six month of 2010 and generated revenues of TL 207.9m

Within our acquisition strategy, 63 licensed areas including all exploration works covering all activities in Turkey were completely purchased from Newmont Overseas Exploration Limited ve Canmont Mining Properties Limited Companies on 28 June 2010 thus bringing Newmont Gold with 99.84% of its shares under our Company's control.

Our Performance

2010 Jan-Jun

2009 Jan-Jun

2009 Jan-Dec

Production	123koz of gold (6.03g/t) 75koz of silver (6.99g/t)	94koz of gold (6.60g/t) 92koz of silver (11.14g/t)	228koz of gold (6.56g/t) 213koz of silver (10.29g/t)
Cash Costs	\$320/oz	\$302/oz	\$270/oz
Revenue	TL 207.9 million	TL 125.8 million	TL 342.4 million
EBITDA	TL 148.7 million	TL 83.2 million	TL 244.7 million
EBIT	TL 120.5 million	TL 63.7 million	TL 183.6 million

About Us

A leading Turkish Gold producer

We are a leading Turkish gold mining company based on our gold production of approximately 123,162 ounces in first six monthr of 2010. As at 30 June 2010, we had 25 operating licences and around 495 exploration licences throughout Turkey in the Aegean and Marmara regions, the Black Sea region and Central and Eastern Anatolia.

We currently own two operating mines: an underground mine at Ovacık, and a mine at Mastra where we utilise both underground and open pit mining methods. Our mining operations at Kucukdere, an open pit mine located 80 km from the Ovacık mine, completed in March 2010 and rehabilitation process has begun. At Kucukdere, we have stockpiled the run-of-mine and low grade ore for transportation to the Ovacık processing plant.

In addition, we have three advanced development projects: Cukuralan and Coraklık Tepe in the Ovacık area and the Kaymaz project in the Kaymaz area. The Cukuralan project will involve both open pit and underground mining methods, and the Coraklık Tepe and Kaymaz projects will involve open pit mining.

We have a pre-feasibility stage project, Mollakara, located near Ağrı in the north-east of Turkey. In addition, our properties also include 17 exploration prospects in Turkey, ranging from early-stage to advanced exploration prospects with resource estimations completed in 2009. At most of our exploration prospects, mapping and sampling programmes are ongoing or completed and drilling and geophysical surveys have already commenced or are planned for 2010. Additionally, we have identified several target exploration sites where the nature of the mineralised deposits suggests that there is potential for resource development.

Exposure to the gold price and gold fundamentals

Substantially all of our revenues are generated from the production and sale of gold, and as a result our financial performance is, and will continue to be, influenced by the market price of gold. Historically, we have not hedged our exposure to gold enabling us to benefit from the positive trend in gold prices in recent years. We intend to continue to operate as an unhedged producer. Between 1 January 2010 and 30 June 2010, the price of gold as quoted on the London Bullion Market ranged between a low of \$1,058.00 and a high of \$1,261.00 per ounce, based on the P.M. fixing price.

We are a leading Turkish gold mining company

We are a leading Turkish gold mining company producing approximately 123,162 ounces of gold in first six month of 2010. Turkey has a rich mining history which dates back thousands of years and today is one of the few underexplored developed countries in the world. According to SRK, as of 2006 Turkey's gold endowment was estimated at 31.5 million ounces of gold contained in 51 deposits. SRK believes that there is promising potential for greenfield exploration in Turkey because over half of the known gold resources in Turkey are in relatively recent discoveries.

"As of 2006, Turkey's gold endowment was estimated at 31.5moz gold contained in 51 deposits ... Since over half of the known gold resources in Turkey are in recent discoveries, there is great potential for greenfield exploration within Turkey." (SRK)

Sector

Changes in mining law Turkey, increasing gold price trend and developments in technology have led to the increase in gold potential in Turkey. Studies indicate that there are approximately 6500 tones of gold in Turkey.(resource:Turkey's Gold Potential and Mining Resources Cutting Methods, Ayhan Erler, METU, Geology Department,1997) Only 10% of this, which is 650 tones are classified as reserves. Therefore, when market's current situation is examined, it is seen that priority is given to gold exploration. Under the current procedure, exploration licence is issued for 3 years and can be renewed for two years. Afterwards this license is to be converted to operational license.

With foregoing reasons, the competition in this sector has intensified on exploration activities. Koza Gold has been pursuing these two activities in paralel. In next three years, competition will be from domestic and foreign companies and intensify at West Anatolia. In the production areas, competition is expected to be from Eldorado(Tuprag, which is currently in production

and Anatolia minerals (YAMAS,Cukurdere), currently in permitting stage. Domestic companies who are involved in exploration activities are thought to be starting production at later stages.

Despite 6500 tones of gold potential and 650 tones of reserves, Turkey only produces between 10 and 20 tones of gold and 250 -300 tones of gold need to be imported to meet the demand.

Company

Koza Gold Operations Company is a Turkish company formed by 100% Turkish capital to explore and operate gold mines in our country. ATP Construction and Trade A.Ş. and Koza-Ipek Holding A.Ş. have acquired all the shares of from Normandy Mining A.Ş. and Newmont Mining Corporation Limited in 3 March 2005 thus becoming first Turkish company in the history of Republic of Turkey to realize gold production in this country. Company's Ovacik Gold Mine situated at Bergama, Izmir has been a key factor in turning the country's big gold potential into economical gain and it is the first gold mine operated in the Republic of Turkey.

Within our acquisition strategy, 63 licensed areas including all exploration works covering all activities in Turkey were completely purchased from Newmont Overseas Exploration Limited ve Canmont Mining Properties Limited Companies on 28 June 2010 thus bringing Newmont Gold with 99.84% of its shares under our Company's control.

We have a track record of growing production, reserves and resources

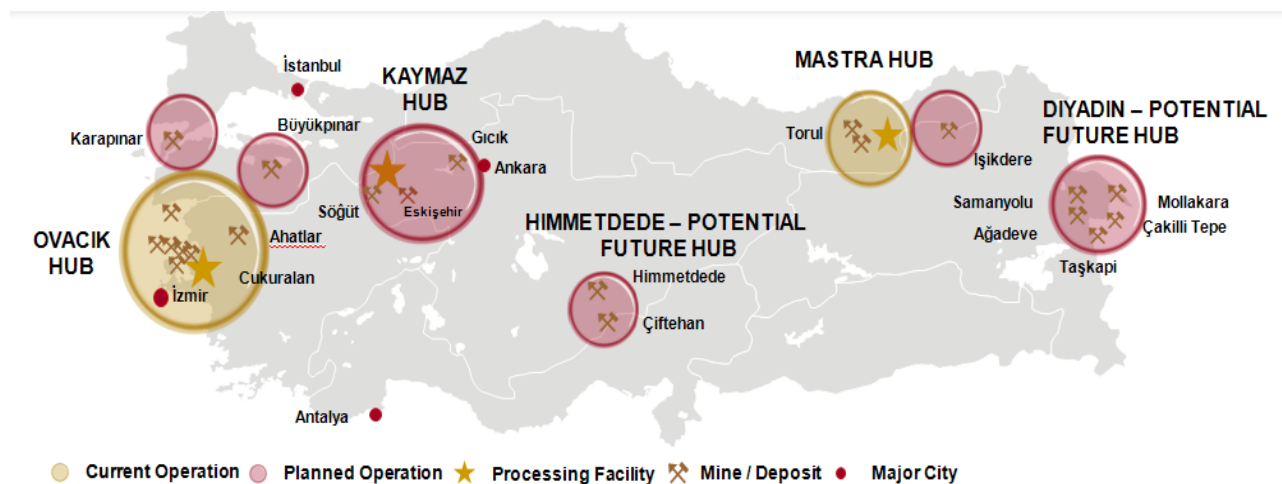

We have demonstrated an overall trend of growing production levels since our inception in 2005, and we believe that our mines, development projects and exploration prospects provide significant potential for continued growth. In 2005, we successfully restarted ore production at the Ovacik mine after acquiring it. We developed and brought into full production the Kucukdere mine in 2006, the Mastra mine in 2008 and the Gıcık mine in 2009. We produced approximately 187,000 ounces of gold in each of 2006 and 2007. In 2008, our production dipped to approximately 167,000 ounces due to the depletion of the open-pit mine at Ovacik in 2007. We produced 228,000 ounces of gold in 2009. Ore production at the Cukuralan mine, which has measured and indicated gold resources of 1.3 million ounces, is expected to begin from open-pit operations in 2010, which we expect to enable us to continue operating the Ovacik processing plant at its current levels of gold production. An agreement was signed for the construction of Cukuralan mining haul roads. It is planned to start ore production at Cukuralan Open Pit Mining in August 2010.

Since March 2005, we have successfully increased both our reserve and resource base as a result of acquisitions, exploration activities and the increase in gold prices. As at 31 December 2009, our total measured, indicated and inferred resource base had increased to 8.0 million ounces of gold from 1.3 million ounces, and our total proven and probable reserve base had increased to 1.8 million ounces of gold from 0.4 million ounces. As of 31 December 2007 and 30 September 2009 all of our reserves and resources were audited by SRK.

Our business model focuses on a regional hub strategy to maximise profitable production

We are pursuing a strategy of using our processing facilities as hubs to process ore from regional deposits. We expect that this centralised processing will minimise our capital expenditure requirements, enabling us to develop relatively smaller deposits in each hub area that are high grade but not of sufficiently large scale to justify the construction of dedicated processing facilities. Our first application of this business model has been the development of the Ovacık hub and the Küçükdere deposit, located 80 km by road from the Ovacık processing plant. We plan to replicate this model for other deposits located in the vicinity of Ovacık, such as Çoraklık Tepe. In addition, we established a second processing hub at Mastra in 2009 and are planning to establish a third processing hub in Kaymaz in 2011.

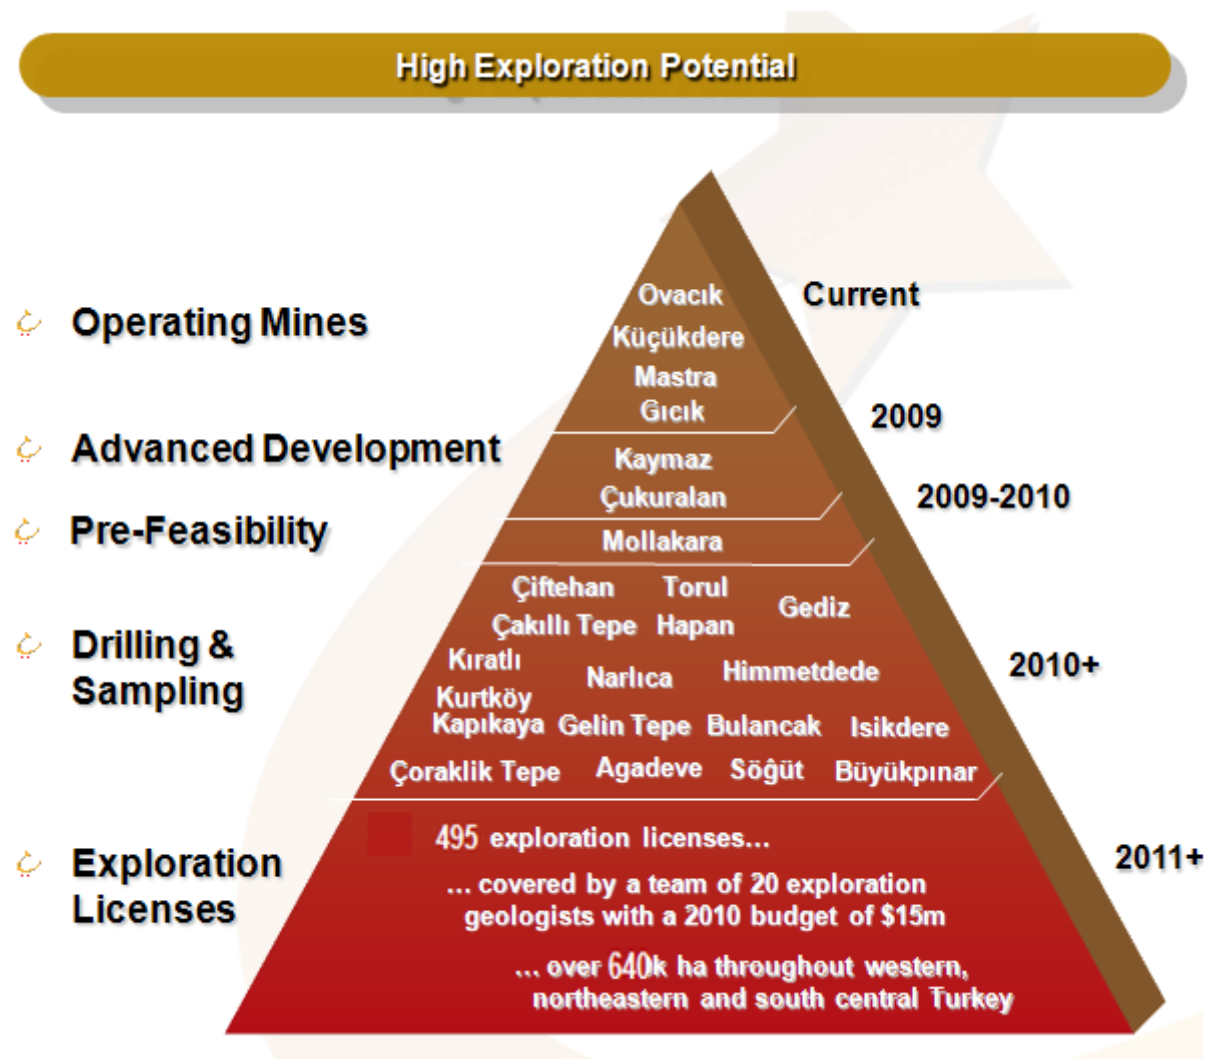

We have historically had low cash costs

Historically we have enjoyed relatively low cash costs, on an adjusted basis, in part as a result of our use of regional hubs for gold production, our reliance on third party contracting for open-pit mining, low logistics costs and sales of silver by-products. Our unit cash costs derived from our accounts for the first six months of 2009 ,the first six months of 2010 and full year 2009 amounted to 486 TL (\$302), 488 TL (\$320) and 419 TL (\$270) respectively.

Turkey Highly Prospective: We have a significant pipeline of development and exploration assets in Turkey

We believe that our growth opportunities include the expansion of existing operations through discovery of additional resources adjacent to currently delineated deposits as well as the development of our pipeline of projects and greenfield exploration .

Health and Safety

We are committed to the highest standards of safety and continuously seek to develop, improve and implement new safety programmes and procedures to protect the safety of our employees. We continuously improve the safety of our working conditions by implementing practices such as monthly workplace inspections and weekly safety committee meetings. We regularly conduct safety audits and assessment programmes to ensure the adequacy of our health and safety policies. We also strive to improve our employees' response to emergencies by maintaining an underground and a mine rescue team for each site. For example, at Ovacık we have two emergency response teams, an underground rescue team comprising 13 employees and a mine rescue team comprising 22 employees. We believe we are currently in material compliance with all health and safety regulations. We pay specific attention to include in our subcontractor agreements clauses regarding health and safety measures and guidelines that are required to be followed by the contracting parties

Environment

Our environmental department is responsible for filing EIA reports with the MEF and ensuring that our operations comply with all applicable environmental laws and regulations

The MEF considers several categories of environmental factors and compares the projected impact of the proposed mining activities to previously set environmental thresholds

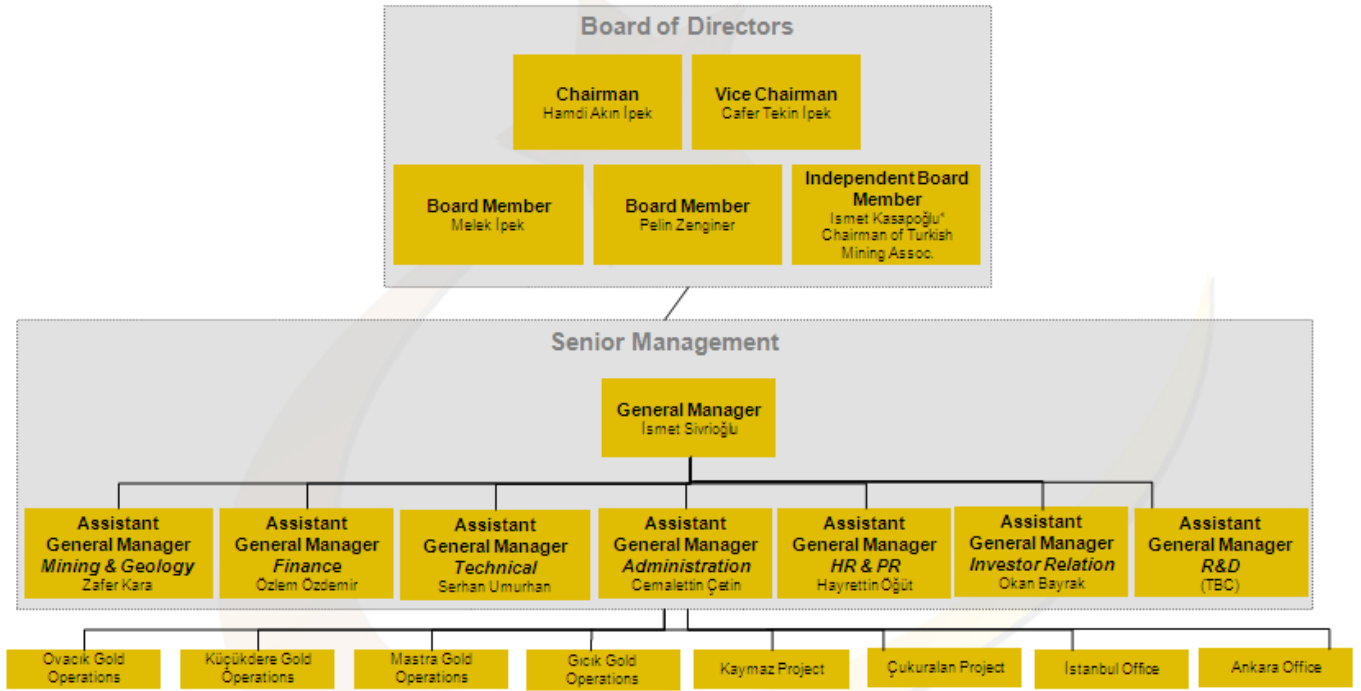

We ensure that our employees and contractors understand and comply with our environmental policies and management plans as well as our high level of commitment to environmental management. Our Environment Department at the same time has been providing training program since March 2007 on environmental awareness to all employees and as well as on environmental policies and implementations for newly recruited personnel at the mine site.

We have timely made all required emissions payments in full and have not faced any fines or penalties

According to the Competent Person's Report, in the seven years since the mining of ore began at Ovacık, no claims have been made against us by any governmental entity in respect of environmental non-compliances. We believe that we are in material compliance with all relevant environmental laws and regulations

Operation Manager

Project Manager

Directors

Hamdi Akin İpek

Chairman

He worked as the marketing manager of Koza Anadolu Metal between 1992 and 1996, where he also serves as the chairman of the board of directors. Between 2004 and 2008, Mr. İpek has served as the chairman of the Board of Directors of Koza İpek Gazetecilik. Additionally, Mr. İpek also serves as the chairman of the Board of Directors of Koza Holding, ATP, ATP Havacılık, İpek Matbaacılık and Koza İpek Sigorta. In 1986, Mr. İpek received a Graduate degree in Economics from Harlaxton College, UK (British Campus of the University of Evansville, Indiana, USA) and a Bachelor's degree in Business Administration from Hacettepe University, Ankara, in 1990.

Cafer Tekin İpek

Vice Chairman

He worked as the finance manager for İpek Matbaacılık between 1992 and 1997 and was named its general manager in 1995. Since 2004, Mr. İpek has served on the Board of Directors of Koza Holding, Koza İpek Gazetecilik and Koza İpek Sigorta. Additionally, Mr. İpek is a member of the Board of Directors of Koza Anadolu Metal, ATP, ATP Havacılık and İpek Matbaacılık. In 1990, Mr. İpek received a Bachelor's degree in Economics from Harlaxton College, UK (British Campus of the University of Evansville, Indiana, USA).

Melek İpek

Board Member

Mrs. İpek is a philanthropist and has worked with many charitable organizations such as Hospital Volunteers Foundation and Children's Care. She is

the chairman of the Board of Directors of the Turkish charitable organization YOYAV. Mrs İpek also serves as a member of the Board of Directors of Koza Holding, İpek Matbaacılık, Koza Anadolu Metal, ATP and ATP Havacılık.

Pelin Zenginer

Board Member

Mrs. Zenginer is a member of the İpek family. She worked as the manager of foreign trade for İpek Matbaacılık between 1992 and 1997. In addition, starting from 2003, Mrs. Zenginer serves as a member of the Board of Directors of Koza Holding, Koza Anadolu Metal, ATP, ATP Havacılık and İpek Matbaacılık. She is also a board member of ATP. In 1992, Mrs. Zenginer received a Bachelor's degree in Business Administration from Hacettepe University, Turkey.

İsmet Kasapoğlu

Independent Board Member

Mr. Kasapoğlu has more than 40 years of mining experience at a variety of different domestic mining companies. Between 1985 and 2001, he worked as a manager, and later as a board member of Soma Local Operations; between 2001 and 2006, he served as the chairman of the Board of Directors of the trona and natural soda company, Eti Soda A.Ş. He has served as the TOBB(the Union of Chambers and Commodity Exchanges of Turkey) chairman of the Turkish Mining Assembly since 2006, the chairman of the Board of Directors of the Council of Chairmen of the Mining Sector since 1999 and the chairman of the Turkish Miners' Association since 1991. He received a master's degree in mining engineering from the İstanbul Technical University, Mining Faculty in 1963.

Management

İsmet Sivrioğlu

General Manager

Chemical Engineer with more than 40 years of experience in several production plants and management positions. Between 1970 and 1983, Mr.Sivrioğlu worked at the sulphuric acid, borax, asitboric and perborate plants of Etibank where he held numerous positions, including, as shift engineer, chief engineer and assistant general manager, technical. In 1984, he was appointed the general manager of Kütahya Silver Mine where he worked until 1994, supervising the plant's construction, commissioning and operational stages. He was promoted to Etibank Corporate and served as its assistant general manager between 1994 and 1998. During this time he also served as the chairman of the Board of Directors of Çayeli Copper Operations Inc. He served as the advisor to the Minister of State during 1997 and 1998. He joined Koza Gold in 1999 as the General Manager for community relations and government relations. Since 2005 he served as the General Manager of Koza Gold.

Zafer Kara

Assistant General Manager, Mining and Geology

He has served as Assistant General Manager responsible for Mining and Geology since march 2007, but has worked for all of our predecessor entities since 1988. He has more than 20 years of mining experience, including from Newmont and Normandy, as a mine and exploration geologist. Additionally, he has been involved in exploration projects in Iran, Kazakhstan, Ghana and Australia. He is a member of Australian Institute of Geoscientists.

Özlem Özdemir

Assistant General Manager, Finance and Commerical

She has Bachelor's degree in Business Administration and serves the Company as CFO since 2007. She has worked for all of the predecessor entities since 1996. She served Newmont as the Financial Controller being responsible for the preparation of the budgets, forecasts and financial reports in accordance with US GAAP and Turkish Accounting Standards.

Serhan Umurhan

Assistant General Manager, Technical

He serves as Assistant General Manager, Technical, and is responsible for gold processing facilities, maintenance, environmental compliance and the assay laboratory. Between 2001 and 2005 he served in various positions with Normandy and Newmont during their respective ownership of Ovacık, including as project and infrastructure manager. He graduated in 1997 with a B.Sc. degree in Electrical and Electronical Engineering.

Hayrettin Ögüt

Assistant General Manager, Human Resources and Public Relations

He serves as Assitant General Manager of human resources and public relations. Between 1993 and 2005, he worked for Newmont and Normandy as their respective public relations manager. He obtained a B.Sc. degree in Chemistry.

Cemalettin Çetin

Assitant General Manager, Administration

He serves as te Assistant General Manager in charge of administration. He has held various management positions in the public and private sectors. He has held senior management positions at İpek since 2001. He obtained a Bachelor's degree in Mechanics.

Okan Bayrak

Assitant General Manager, Investor Relations

Okan Bayrak, an Assistant General Manager in charge of Investor Relations in our Company has graduated from the Department of Economics of Middle East Technical University in 1995. He joined the Capital Market Board as an Expert in the same year. He has held an office as an Expert at CMB Partnership Finance Department in May 1999. Between 2002 - 2003, he has participated in the training programs covering US stock exchange arrangements, financial institutions and capital markets at the Wharton School of the University of Pennsylvania. On December, 2007, he started to work as a Deputy Head at the Department of Capital Market Board.

Okan Bayrak joined Koza Gold Operations as an Assistant General Manager in May 2010.

Financial Review

- Production increased to TL 123 koz in first six months of 2010 by % 31.6 when compared to TL 94 koz in first six months of 2009.
- Revenue increased to TL 207.9 million in first six months of 2010 by % 65.3 when compared to TL 125.8 million in first six months of 2009.
- EBIT increased to TL 120.5 million in first six months of 2010 by % 89.1 when compared to TL 63.7 million in first six months of 2009.
- %30.0 of the company is listed in Istanbul Stock Exchange (ISE) in February 2010.
- Within our acquisition strategy, 63 licensed areas including all exploration works covering all activities in Turkey were completely purchased from Newmont Overseas Exploration Limited ve Canmont Mining Properties Limited Companies on 28 June 2010.

Production

We are a leading Turkish Gold Mining Company based on gold production of approximately 123,162 ounces in first six months of 2010. As at June 30, 2010 we had 25 operating licences and around 495 exploration licences throughout Turkey.

We currently have two processing plants. Our first processing plant at Ovacık has been operating since 2001. The plant is currently processing 900,000 tpa. In first six months of 2010 we produced 65koz of gold and 57koz of silver from Ovacık processing plant. Our second processing plant at Mastra has been commissioned in 2009 and has been operating since March

2009. It is currently processing around 40,000-45,000 tpm. In first six months of 2010 we produced 59koz of gold and 19koz of silver from Mastra processing plant. We produced 123koz of gold in total in first six months of 2010 with an increase of %31.6 from 94koz of gold in first six months of 2009.

The increase in gold production resulted principally from the fact that our ore processing plant at Mastra commenced operations at the end of March 2009.

Revenues

Our revenues increased by TL 82.1 million, or %65.3 to TL 207.9 million for the six months ended 30 June 2010 from TL 125.8 million for the six months ended 30 June 2009. We sold 117,710 ounces of gold in first six months of 2010 compared to 84,423 ounces of gold in first six months of 2009, a % 39.4 increase. Attributable production of 123koz was higher than the first six months of previous year 94koz, following the start-up of production in our second process plant at Mastra. The average realized price per ounce for gold sold was TL 1,748.87 (\$1152.90) in first six months of 2010 compared to TL 1,466.63 (\$922.71) in first six months of 2009.

Cost of sales

Our cost of sales increased by TL 18.2 million or %39.8 to TL 63.9 million from TL 45.7 million in first six months of 2009. The principal reason for the increased cost of sales start up of production at our Mastra processing plant , this cost increase caused by depreciation and amortisation expense, staff costs, direct materials, maintenance costs, utilities and transportation costs. Depreciation and amortisation increased by TL 8.7 million, or % 44.5, to TL 28.2 million in first six months of 2010 from TL 19.5 million in first six months of 2009. This increase was principally caused by an increased depreciation and amortisation related to additional mine development costs incurred mainly at our Ovacik and Mastra projects. Staff costs increased by TL 1.6 million, or % 26.2, to TL 7.7 million in first six months of 2010 from TL 6.1 million in first six months of 2009. This increase was mainly attributable to additional employees hired by us in connection with the commencement of operations at our Mastra ore processing plant in March 2009 and to a lesser extent an overall increase in wages which was generally in line with inflation. Direct materials costs increased by TL 0.4 million, or %7.5, to TL 6.3 million in first six months of 2010 from TL 5.9 million in first six months of 2009. Maintenance costs increased by TL 1.0 million, or %20.1 to TL 5.7 million in first six months of 2010 from TL 4.7 million in first six months of 2009. Utilities increased by TL 0.8 million, or %35.1 to TL 3.1 million in first six months of 2010 from TL 2.3 million in first six months of 2009. Increases in the general production ,maintenance and energy expenditures have been mainly due to start of production at Mastra in March 2009. Transportation costs increased by TL 3.2 million, or % 150.9, to TL 5.3 million in first six months of 2010 from TL 2.1 million in first six months of 2009. Principally due to the additional transportation costs incurred for the transportation of the high grade ores from Gicik Project to Kaymaz and increased transportation of Kucukdere ores in first six months of 2010 compared to previous year.

Cash cost was 488 TL (US\$320) per ounce in first six months of 2010, and 486 TL(US\$302) per ounce in first six months of 2009.

Selling and Marketing Costs

Our selling and marketing costs increased by TL 0.2 million, or %8.8, to TL 2.1 million from TL 1.9 million in first six months of 2009 . In February 2010 we signed an agreement with Turkish Refinery Atasay Kıymetli Madenler A.Ş. which allows us to sell all dore in Turkey. Sale costs would drop in coming months as the produced gold and silver have been sold domestically and 1% of sale commission which arises from export will not be paid..And the sale of the gold and silver is executed in two working days.

General Administrative Expenses

Our general administrative expenses increased by TL 4.4 million, or %39.5, to TL 15.7 million in first six months of 2010 from TL 11.3 million in first six months of 2009. These increased expenses were principally attributable to an increase in consultancy and audit costs. Our consultancy and audit costs increased by TL 2.3 million, or %449.0, to TL 2.8 million in first six months of 2010 from TL 0.5 million in first six months of 2009. This increase resulted principally from the IPO consultancy and audit costs. The donation expense incurred in first six months of 2010 was 0.5 million TL.

Exploration Costs

Exploration costs increased by TL 2.4 million, or %64.6, to TL 6.0 million in first six months of 2010 from TL 3.7 million. This increase resulted primarily as a result of the increased scope of our exploration and surveying of various development and exploration projects

Profit for the Period

As a result of the foregoing, our profit for first six months of 2010 increased by TL 54.0 million, or %112.7, to TL 101.9 million in first six months of 2010 from TL 47.9 million in first six months of 2009. Our profit margin for first six months of 2010 increased to % 49.0 from %38.1 in first six months of 2009.

Capital Expenditures

We primarily incur capital expenditures to build new mines and processing plants, expand, upgrade and improve existing mines, processing plants, and related infrastructure, purchase mining and processing equipment to replace aged, inefficient, or obsolete machines and explore our licence areas for new resources. Our mining and non-mining capital expenditures for first six months of 2010 are as below with comparison first six months of 2009.

	2010 Jan-Jun	2009 Jan-Jun
Ovacık	11.292.834,1	10.468.166,2
Mastra	18.975.548,5	24.295.044,4
Küçükdere	1.208.654,3	6.372.615,4
Kaymaz	2.620.294,0	1.281.670,4
Çukuralan	7.157.847,5	1.232.612,7
Gıcık	3.269,8	2.980.511,5
Other	3.763.369,8	95.656,5
Total	45.021.817,9	46.726.277,0

Cash flow

Net cash generated from operating activities increased TL 108.6 million or %7 545.5 to TL 110.1 million for the six months ended 30 June 2010 from TL 1.4million for the six months ended 30 June 2009. This increase is due to 8.7 million TL increase of amortisation, and increase of 27.4 million TL in collection of trade receivables from related parties ,decrease of 20.1 million TL in repayment of not-trade debts to related parties and decrease of 42.2 million TL in dividends paid related to previous period. There is an increase of 18.6 million TL in tax and 9.0 million TL increase in fixed asset purchases material and non- material and fixed asset advances given.

Our corporate tax for first six month of 2010 has increased to 23.6M TL from 11.9M TL due to the higher revenue in first six month of 2010 when compared to first six month of 2009 . The reason for this is the , increase in production effected by Mastra Plant and high gold prices. (Average gold price for the first six months of 2009 was 1.466.63 TL(\$922.71); average of 1.748.87TL (\$1152.90) for the first six months of 2010.)Our debt structure is strong. Currently we are financing our capital expenditures from cash that we are generating from operations.

With the construction of our third processing plant in Kaymaz, our plan is to increase our production in 2011 with maintaining strong balance sheet and debt structure.

RATIOS	30 June 2010	2009	30 June 2009

Investment Policy

Exploration activities of the Company consist of exploring new gold and silver deposits, calculating resources by sampling and modelling; and directing the pre-production process for the areas that are economically feasible. Company's exploration team is continuously exploring the potential areas. In case of any positive result, the Company applies for an exploration licence, and the exploration team is sampling and modelling the licenced area. All the samples taken are analyzed by the Company and by the international consultants for resource calculation. If any economically feasible resource deposit is explored, the production is planned by a construction of a new process plant or by processing the ore in the nearest hub.

Dividend Policy

Our company firstly aims to grow in present areas of production and operational facilities, to make strategic investments in new gold fields and to weigh on exploration activities within current exploration licenses. Within this framework, our Company has been targeting to meet all these investments by cash inflow derived from production areas

Within the framework of strategically targets, growth trend, investment policies, profitability and cash status and the provisions of Turkish Trade Act, Capital Market Regulations, Taxation Regulation and relevant clause of our principal contract related to the distribution of profit, Our Company will pay the dividend in the form of cash and/or unpaid shares in minimum proportion of it as basically specified by the Capital Market Board. The dividend, which will be distributed in pursuant to the decision to be taken at General Board meeting may be paid in full or in the form of unpaid shares or be determined to be as partially in cash and unpaid shares.

In parallel with the profit distribution policy of the recent years, it is always possible for the Board of Directors to decide proportion of profit distribution to be above the minimum ratio and submit this to the General Board for the approval.

Payments of dividend will be effected within the legal period based on the articles of associations.

Financial Risk Management

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and cash equivalents, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying businesses, existing and prospective debt requirements, the Group treasury aims to maintain flexibility in funding by keeping committed credit lines available. The ability to fund the existing and prospective debt requirements is managed by maintaining the availability of adequate committed funding lines from high quality lenders.

In addition, the Group's liquidity management policy involves projecting cash flows, considering the level of liquid asset, monitoring balance sheet liquidity ratios against the budgets, maintaining debt financing plans. Cash flow forecasting is performed for each operating mines and aggregated by the Group treasury and finance. Such forecasting takes into consideration the Group's financing plans.

Foreign exchange risk

As the Group's trade receivables and bank borrowings are mainly denominated in USD, foreign exchange risk arises when future commercial transactions or recognised assets or liabilities are denominated in a currency that is not the Group's functional currency. The price in global gold market predominately is USD which also exposes the Group to the foreign exchange risk. The Group is exposed to foreign exchange risk through the impact of rate changes on translation into TL of foreign currency denominated assets and liabilities. These risks are monitored by analysis of the foreign currency position.

Price risk

The main operational risk is derived from gold price risk. Gold price risk arises from the risk of an adverse effect on current or future earnings resulting from fluctuations in the price of gold. The profitability of the Group's operations, and the cash flows generated by those operations, are affected by changes in the market price of gold, such that a fall in the price of gold relative to the Group's operating cost of production for any period may lead to a decrease in operational profitability of the Group. The Group does not anticipate that prices in global gold markets will decrease significantly in the foreseeable future, and therefore, has not entered into derivative or other contracts to manage the risk of a decline in prices in global gold markets. Furthermore, the Group reviews its outlook for the market prices regularly in considering need for active financial risk management. This risk is closely monitored by analysis of the prices in global gold markets.

Interest rate risk

The Group's interest rate risk arises mainly from long-term borrowings. Borrowings issued at variable rates and other interest bearing liabilities expose the Group to cash flow interest rate risk which is partially offset by interest bearing assets. The interest rate risk is partially managed through the balancing of assets and liabilities that are responsive to the fluctuations in interest rates.

Credit risk

Credit risk arises from cash and cash equivalents, deposits in banks and financial institutions, as well as credit exposures to customers, including outstanding receivables and committed transactions. Risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. As the Group sells the doros to only refineries, one in Turkey other in Europe, with a maturity of less than one month, the credit risk for the Group is very low. The Group management, in line with the past experiences, there were never defaults or delays in payments, thus, believes that the credit risk is well managed and monitored effectively and credit risk is limited to carrying amounts of the financial assets.

Incentives

The Province of Gumushane where Mastra Gold Mine is situated has been one of the provinces which are covered under Investment and Employment Incentive Act 5084. 80% of the income tax is borne by the Treasury. The amount met by the Treasury must not exceed 80% of the sum as calculated by multiplying number of employees with income tax commuted on the minimum wage. Minimum living reduction total for the personnel calculated should be deducted from this amount. We also benefit from Employer incentive premium applied within the same Act. Treasury meets 20 % of the energy expenditure. For companies employing more than 10 people, 0.5% is added for each additional employee. Energy Support share paid by the Treasury can not exceed 40%. As 10% of the investment has been completed as at 31.12.2010 for investment granted with Incentive Certificate at Gumushane, contribution rate to investment is 60% and corporate tax reduction rate is 90%.

For our workplaces other than Gumushane, we also benefit 5% employer premium incentive based on the Act 5510.

Post Balance Sheet Events

Changes in the Articles of Association

i. By increasing our company's fully paid capital of 60.000.000.TL to 152.500.000TL to be met by the year 2009 profits, and in order to register nominal value shares of 92.500.000TL, which will be issued and offered to public within Capital Market Board, following draft amendments and inclusions on the Company's Articles of Association have been approved by the CMB dated 16.04.2010 with resolution no:10/329.

Amendment of article 6 titled; "Capital and Type of Shares" ; inclusions of article 7/A titled; "Related Party Transactions", Article 7/B titled; "Committes attached to Board Management", and article 10/A titled; "Auditing Committee". The changes to these articles 6, 7, and 10 have also been permitted by the Ministry of Trade and Industry with their reference letter no:2262.

CAPITAL AND TYPES OF SHARES ARTICLE 6.

The capital of the company is TL 60.000.000 (Sixty million Turkish Liras) and has been divided into 1.200.000.200 A-group shares and 4.799.999.800 B-group shares, each of which has nominal value of 1 New Kurush, which correspond to 6.000.000.000 (sixty billion) shares in total. The distribution of shares by their groups and types is as follows;

Group	Registered/Bearer	Number of Shares	Share Amount (TL)
A	Registered	1.200.000.200	12.000.002,00
B	Bearer	4.799.999.800	47.999.998,00
Total		6.000.000.000	60.000.000,00

This capital has been fully paid. A-group shares are registered shares and B-group shares are bearer shares. In any capital increase, A-group new shares will be issued against A-group shares and B-group shares against B-group shares. Transfer of share certificates of the company is allowed provided that the provisions of Turkish Trade Code, Capital Market Law and these articles of association are reserved.

THE BOARD OF DIRECTORS AND PERIOD THEREOF ARTICLE 7.

The Board of Directors consists of five persons. Four of these are elected by the General Assembly from the persons to be nominated by the owners of A-group registered shares and one independent member is elected by the General Assembly from the persons nominated at the General Assembly meeting.

Majority of board members must be Turkish national and have the qualifications set forth in the legislation of Turkish Trade Code

CAPITAL AND TYPES OF SHARES ARTICLE 6.

The capital of the company is TL 152,500.000 (One hundred fifty two million and five hundred thousand Turkish Liras) and is divided into 3.050.000.508 A-group shares and 12.199.999.492 B-group shares, each of which has nominal value of 1 New Kurush, which corresponds to 15,250.000.000 (fifteen billion two hundred fifty thousand) shares in total. The distribution of shares by their groups and types is as follow

Group	Registered/Bearer	Number of Shares	Share Amount (TL)
A	Registered	3.050.000,508	30,500.005,08
B	Bearer	12,199.999.492	121.999.994,92
Total		15,250,000,000	152,500,000.00

Former capital has been fully paid. The entire amount of 92.500.000-TL representing this increase was met by the 2009 profit. The shares to be issued for 92.500.000TL added into Company capital from internal resources (profit from year 2009) will be given to company's share holders as bonus issue and in the ratio of their current shares. A-group new shares will be issued against A-group shares and B-group shares against B-group shares. Shares representing capital are monitored within the frameworks of recordings. Transfer of share certificates of the company is allowed provided that the provisions of Turkish Trade Code, Capital Market Law and these articles of association are reserved.

THE BOARD OF DIRECTORS AND PERIOD THEREOF ARTICLE 7.

The Board of Directors consists of five persons. Four of these are elected by the General Assembly from the persons to be nominated by the owners of A-group registered shares and one independent member is elected by the General Assembly from the persons nominated at the General Assembly meeting.

and Capital Market. At the 1st meeting after each Ordinary General Assembly or each General Assembly at which members are elected, the Board of Directors elects President and Vice President from the members representing the owners of (A)-group registered shares.

In case of vacancies in the Board of Directors due to death and resignation of members or other reasons, the Board of Directors elects a new board member having the legal qualifications specified in Turkish Trade Code and Capital Market Law from the owners of the share group from which old member is elected and the circumstance is submitted to approval of the first General Assembly to convene. The members elected in this way serve until the the first General Assembly, and complete remaining periods of office of old members when their election is approved by the General Assembly.

Majority of board members must be Turkish national and have the qualifications set forth in the legislation of Turkish Trade Code and Capital Market. At the 1st meeting after each Ordinary General Assembly or each General Assembly at which members are elected, the Board of Directors elects President and Vice President from the members representing the owners of (A)-group registered shares.

In case of vacancies in the Board of Directors due to death and resignation of members or other reasons, the Board of Directors elects a new board member having the legal qualifications specified in Turkish Trade Code and Capital Market Law from the owners of the share group from which old member is elected and the circumstance is submitted to approval of the first General Assembly to convene. The members elected in this way serve until the the first General Assembly, and complete remaining periods of office of old members when their election is approved by the General Assembly.

Related Party Transactions

Article 7/A

The Board of Management must approve loan transactions and agreements signed with the company and group companies, affiliates and all related parties and all kinds of loan, advance, sales and purchases carried out by the board members, managers and officials with the company. It is mandatory for an independent member to attend and cast vote (in favour or against) at the meetings where Board management approves the transactions with related parties. If there are more than two independent members on the board, majority of the members must attend and vote (in favour or against) for related resolution. Board member who possesses benefit in related party transaction must disclose it. Those who oppose the resolution sign it with stating the reasons of objections. Independent Board Members can vote in favour or against in relation with related party transactions and state their objections and have them included in the minutes of meeting. It is compulsory to record all the notices of objections and statement of benefits as well as votes and to keep minutes within the company.

Committees attached to Management of Board

Article 7/B

In order to execute duties and responsibilities in sound manner and taking into the consideration of the needs of the Company, the Management of Board, sets up Auditing Committee and if required, sufficient number of other committees. Duties and areas of the activities are defined in detail when deciding to set up these committees in the light of the provisions of Articles of Association.

The committees are structured within the frameworks of this Articles of Association and Capital Market Board's Corporate Governance principles. Committee president is elected amongst the Independent members.

	<p>Committee members may be elected from non-executive board members. Committees act independently and submits proposals to the Board Management. They have no authority to take executionary decisions. Board of Management is authorized to take decisions on matters proposed by the committees.</p> <p>Committees convene upon a call by the Committee President whenever necessary. All works are conducted in writing and necessary records are kept. All communication and notification process are conducted by Secretariat of the Board Management.</p>
<p>AUDITORS AND DUTIES THEROF ARTICLE 10. The General Assembly assigns two auditors for a period of at most three years. Auditors are elected from the persons to be nominated by (A)-group registered shares.</p> <p>Auditors are obliged to carry out the duties set forth in articles 353 and 357 of Turkish Trade Code.</p>	<p>AUDITORS AND DUTIES THEROF ARTICLE 10. The General Assembly assigns two auditors for a period of at most three years. Operational Review

- 94koz gold production in first six month of 2009,
123koz gold production in first six month of 2010.

We currently own two operating mines: an Underground mine at Ovacık, and a mine at Mastra where we utilise both underground and open pit mining methods. Our mining operations at Küçükdere, an open pit mine located 80 km from the Ovacık Mine, completed in March 2010 and rehabilitation work is continuing. In addition we have three advanced development projects: Çukuralan and Çoraklık Tepe in the Ovacık area and the Kaymaz Project in the Kaymaz area. The Çukuralan project will involve both open pit and underground mining methods, and the Çoraklık Tepe and Kaymaz projects will involve open pit mining.

Mining Operations

Ovacık

The Ovacık mine is located near Ovacık village in western Turkey, approximately 100 km north of İzmir. It is an underground and open pit mine complex. Material from the open pit operation was depleted in September 2007. The open pit has been partially backfilled and no further production is currently planned. The current underground ore reserves give operations at Ovacık an expected lifespan through the end of May 2012; however drilling is currently being undertaken with the aim of increasing the ore reserve at depth to extend the mine life.

The table below presents an overview of our mining operations at the Ovacık mine:

	2010 Jan-Jun	2009 Jan-Jun
Ore mined (t)	91,323	83,831
Open pit (t)	-	-
Underground (t)	91,323	83,831
Au average head grade (g/t)	7.50	8.91
Ag average head grade (g/t)	4.19	5.15

The table below presents an overview of our processing operations at Ovacık (including processing ore from Küçükdere):

	2010 Jan-Jun	2009 Jan-Jun
Ore milled (t)	438,573	358,347
Recovery rate, Au %	94.60	94.54
Au Grade (g/t)	4.85	6.06
Au poured (oz)	65,434	65,880
Ag poured (oz)	55,887	87,483

The Ovacık processing plant is our regional processing hub for ore located in the Ovacık area. It is currently operating mainly on feed from the Küçükdere mine along with some materials from the Ovacık underground mine. It is aimed to start production at Cukuralan project in August 2010.

Ovacık & Surrounding Properties

Mastra

Our mining operations at Mastra are located 80 km south of the Black Sea, in northeastern Turkey. Mastra comprises both open pit and underground mining operations. Mining operations at the Mastra open pit are scheduled to complete in May 2011.

The table below presents an overview of our mining operations at the Mastra mine:

	2010 Jan-Jun	2009 Jan-Jun
Ore mined (t)	243,490	211,479
Open pit (t)	155,561	161,842
Underground (t)	87,929	49,637
Au average head grade (g/t)	11.20	9.35
Ag average head grade (g/t)	6.54	4.57

The table below presents an overview of our processing operations at Mastra:

	2010 Jan-Jun	2009 Jan-Jun
Ore milled (t)	224,448	117,601
Recovery rate, Au %	94,87	88,86
Au Grade (g/t)	8.35	8.24
Au poured (oz)	57,408	22,269
Ag poured (oz)	19,530	4,082

The construction of the processing plant has been completed and the commissioning has began in March 2009. Feed to the plant is blended from open pit and underground material from Mastra. Plant throughput is currently around 40,000tpm.

Küçükdere

The Küçükdere mine is located 80 km from the Ovacık mine. We acquired this property in November 2005 from Tüprag and we started the production in several small pits in 2006. The Küçükdere operation ended in March 2010. Rehabilitation works are currently continued.

The table below presents an overview of our mining operations at the Küçükdere mine:

	2010 Jan-Jun	2009 Jan-Jun
Ore mined (t)	43,613	403,939
Open pit (t)	43,613	403,939
Underground (t)	-	-
Au average head grade (g/t)	6.65	4.96
Ag average head grade (g/t)	14.14	11.32

Advanced Development Projects

Çukuralan

Çukuralan is a development stage project in the Ovacık area and is located approximately 40km northwest of the Ovacık mine. This exploration property is low sulfidation, epithermal gold vein system. Since 2005, we performed extensive work on the project, including detailed mapping, stream sediment and soil sampling, resulting in identification of a vein system.

We expect to commence mining ore at Çukuralan in 2010 August from open pit operations and in end of 2010 from an underground mine. The ore will be transported 40 km on trucks to the Ovacık processing plant. The project Environmental Impact Assessment(EIA) report was issued in September 2009 and the relevant EIA affirmative certificate has been granted to begin deforestation of the pit area. We plan to follow the Küçükdere model for grade control, contract mining and stockpile management.

We plan to transport high grade and run-of-mine ores to the Ovacık processing plant based on demand and to stockpile surplus low grade material for processing at a later date. We plan to use our staff to monitor contractor operations. The current production schedule is based on a 30,000 tpd total mining rate with a stripping ratio of 18:1 (ore:waste). The underground mine at Çukuralan will be accessed from the pit wall at the end of 2011, with ore mining planned to begin in the same year.

Kaymaz

The Kaymaz project is located in north western Turkey, approximately 150 km from Ankara. The Kaymaz deposits comprises a number of different mineralisation styles, including manto-type mineralisation, quartz stock works, quartz veinlets and episodic brecciation adjacent to the granite dike. We expect to commence ore

mining at our advanced development project at Kaymaz in 2011 and complete construction of our planned third processing plant, with commissioning in second half of 2011. The primary and secondary mills for Kaymaz have already been ordered and are scheduled to be delivered in 2010. The detailed processing plant design commenced in December 2009. We have elected to use a processing plant flowsheet and design almost identical to those installed at Ovacık and Mastra. It is envisaged that the Kaymaz processing plant will be able to process around 50 tph and this will result in an annual nominal treatment rate of around 400,000 tpy. We are currently targeting gold recoveries of around 84.0%.

Çoraklık Tepe

The Çoraklık Tepe exploration project is covered by the same operation licence as one of the two operation licences covering the Küçükdere mine. The Çoraklık Tepe property has total proven and probable reserves of 148.9kt at a projected average head grade of 9.27 g/t Au and 12.41 g/t Ag producing 44,370 ounces of gold and 59,421 ounces of silver.

Pre-feasibility Project

Mollakara

The Mollakara Project is approximately 55 km sotheast of Ağrı adjacent to the village of Mollakara and is located in Diyadin area in Eastern Anatolia. The Mollakara Project was held by Newmont between 2005 and 2008. Mineralisation at Mollakara is both structurally and lithologically controlled. We have not satisfactorily identified the feeder zones for this project and this is currently a focus for our exploration activities at Mollakara. In addition, we are searching for potential structural extensions. Exploration at Mollakara will include deeper drilling, additional mapping and resource modeling.

Depending on the grade and minerology of the deposit, cyanide heap leaching is likely to be used for gold extraction. We plan to construct a Mollakara heap leach facility to serve as a central processing plant for Mollakara and other nearby deposits. We have undertaken studies which will be included in a pre-feasiblity study for the Mollakara project. These studies include metallurgical test work commenced by SGS Mineral Services UK in December 2009 and a rock mechanics study that commenced in November 2009.

The payment of 2% of royalty from production in pursuant to the contract signed with Newmont in November 2008, has been cancelled as the 99.84% of the company was acquired on 28 June 2010.

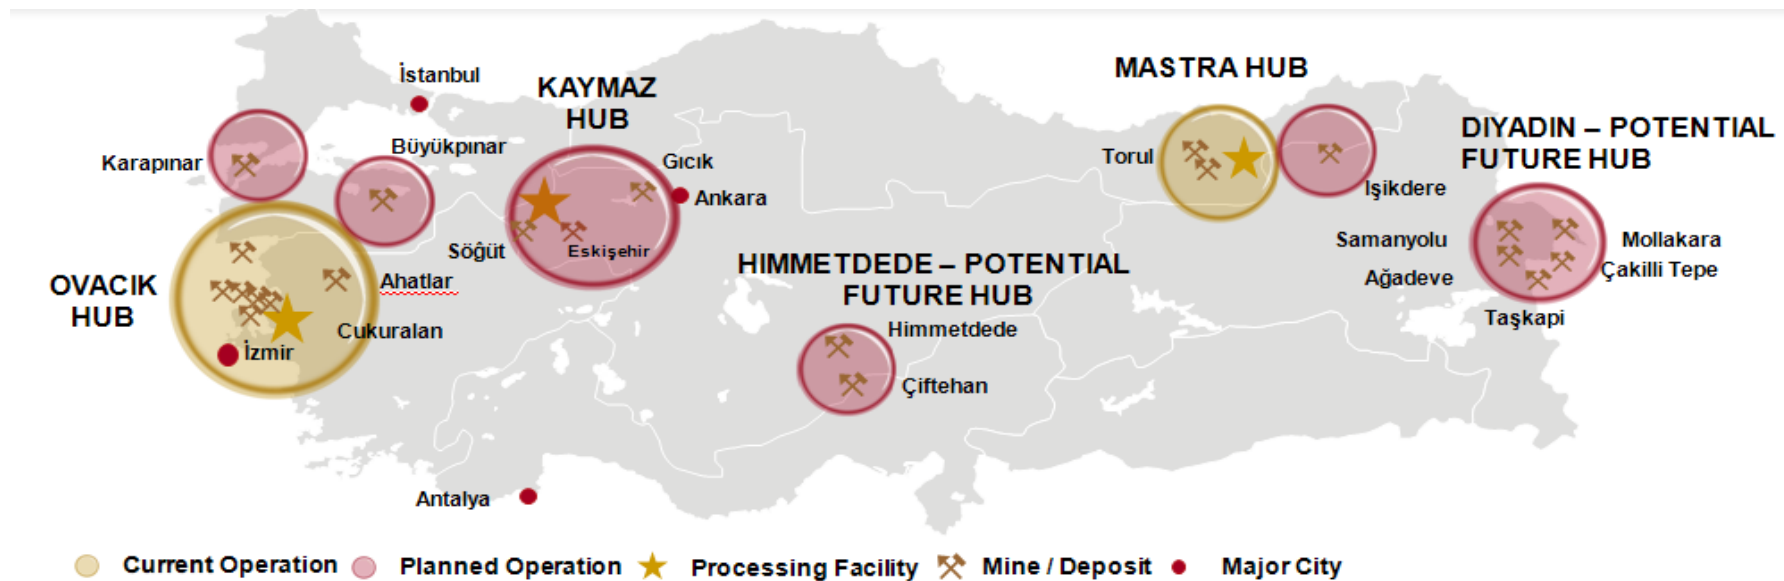

Reserves and Resources

As 31 March 2010 we had 25 operating licences and around 495 exploration licences throughout Turkey in the Aegean and Marmara regions, the Black Sea region and Central and Eastern Anatolia.

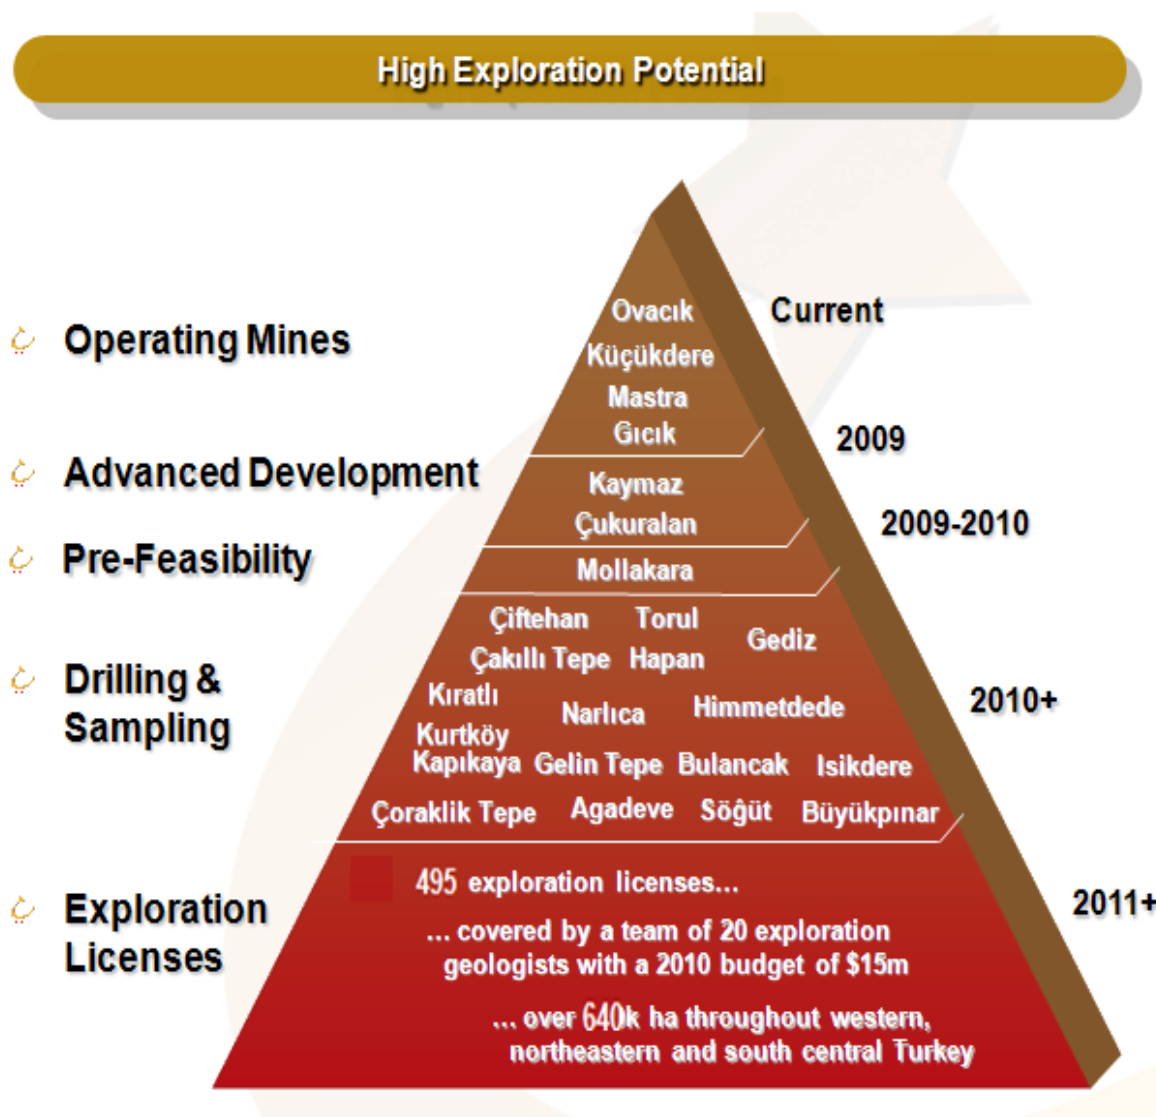

We have a pre-feasibility stage project, Mollakara, located near Ağrı in the north-east of Turkey. In addition our properties also include 17 exploration prospects in Turkey, ranging from early-stage to advanced exploration prospects with resource estimations completed in 2009. At most of our exploration prospects, mapping and sampling programmes are ongoing or completed and drilling and geophysical surveys have already commenced or are planned for 2010. Currently our exploration activities are focused on the expansion of resources surrounding our current and planned mining operations in Ovacık, Mastra and Kaymaz mine areas and in the Diyadin and Himmetdede exploration areas.

As a result of acquisitions and exploration activities, from our inception in March 2005 to 31 December 2009 our total gold resource base increased more than sixfold to 8.0 million ounces from 1.3 million ounces. Over the same period, our total reserve base increased to 1.8 million ounces from 0.4 million ounces, also benefiting from increasing gold prices. Almost half of the resources consist of inferred material. Therefore, Koza is planning to utilize 8 rigs during the year to continue exploration programme and to convert the inferred resources into the higher confidence categories of measured and indicated allowing economic assessments to be made on the resources.

- ☞ A Hub strategy = a central processing plant, surrounded by satellite mining operations
- ☞ A Hub strategy is central to Koza Gold achieving its production and resource objectives
 - Enables profitable acquisition and development of smaller, high-grade deposits, Significantly reduces capital costs
- ☞ Turkey remains largely untapped relative to regions with similar gold resource endowments
 - Combination of high-grade small deposits (e.g. epithermal veins) and lower grade large deposits (e.g. Porphyry)
- ☞ Koza Gold's local operating expertise is a distinct competitive advantage
 - The Ovacık Hub currently has one processing plant with two mining operations
 - A second processing plant is in operation at the Mastra Hub
 - A third hub in Kaymaz is being planned
 - 3 other potential areas for hubs have been identified –Diyadin (proposed Mollakara mine, Himmetdede, Hapan)

- Our current operations are supported by a significant pipeline of development and exploration projects
 - In 2010, we aim to add Çukuralan to the Ovacık hub and aim to establish Kaymaz as the 3rd hub in 2011
- Proven track record of discovering resources, with the intention of continuing to explore our large portfolio and advanced projects

Corporate Governance Report

Corporate Governance Statement

Our Company in principal adopts “Principles of Corporate Governance” accepted by the resolution 35/385 of Capital Market Board on 04 July 2003. Company is aware that implementation of these principles will derive benefit for our company, stakeholders and ultimately our country. Therefore, our Company has initiated implementation of Corporate Governance principles.

SECTION I – SHAREHOLDERS

1. Relationship Unit with Shareholders

Our Company has set up an investor’s relations unit to reach the investors. This section will be operated under the coordination of Okan Bayrak, Assistant General Manager, Investor Relations. It is full-time position for promoting it to domestic and international corporates and individuals, to inform them accurately, fully and correctly, to answer questions immediately. Interviews conducted for a position to assume responsibilities of this section are underway and appropriate candidate will soon be recruited for related position. This section will be available for individual and corporate investors by telephone, fax, e-mail at all times. Any significant developments in connection with company’s business affairs if required will be shared with the public via press releases. It is planned the copies of press bulletins released and presentations shared by the research experts and all documents not in nature of trade secret of the company’s affairs will be available on the internet. This section can be accessed at yatirimciiliskileri@kozagold.com and telephone no: 0 232 641 80 17 or fax no: 0 232 641 80 19

2. Right of receiving information of the investors

A section is reserved in the internet website under the heading of “Investors Relations”. Without any prejudice, all information publicly disclosed are available on the website for shareholders who will have easily and equally access to company information. An internal operating system was set up to quickly reply any queries directed to Investors Relations Unit verbally or written within the information disclosed to the public.

3. Information on General Meeting

Prior to Public Offer, call to General Meeting of our Company was extended in accordance with the provisions of Turkish Trade Act and relevant clauses of Company’s Articles of Association. Following the company’s public offer, call to the General Meeting will be made in accordance with the provisions of Turkish Trade Act as well as Capital Market Act and company’s articles of association by the Management Board and upon the Board’s decision statement will be issued and ISE and CMB will be informed accordingly.

General Board Meetings are held under the supervision of Government Commissioner from Ministry of Trade and Industry and shareholders exercise all of their rights entitled as shareholder and they are allowed to express their opinions and raise questions and make suggestions, all of which will be ensured by the Chairman according to the procedures.

Summary information of attendance of Company’s latest general Board meetings are as follow:

- i) Our company's Ordinary General Assembly Meeting for the year 2009 was held at 3 p.m. on 07.05.2010 at the address of Şeker Mahallesi İstanbul Yolu 19.km No:10 Etimesgut / Ankara under the supervision of Ministry's Commissioner assigned by the Provincial Department of Industry and Trade with a letter of assignment no: 17666.Of the total of 6.000.000.000 shares which make up the company's total capital of 60.000.000.00 TL, 4.862.559.476 shares were represented in person at the meeting along with proxy shares of 64.785.724 totaling 4.927.345.200 shares thus fulfilling the legal requirement to form meeting quorum, as specified in the memorandum of association for holding the meeting.In the Meeting's Agenda, amendments of article 6, 7 and 10, which had been approved by the Capital Market Board on 16.04.2010 no: B.02.1.SPK.0.13-509/3950 for which preliminary permit had been issued by the Ministry of Trade and Industry on 19.04.2010 ref no: 2262 were submitted to Assembly's approval. Furthermore, Independent Auditing Company elected by the Board of Management in accordance with article 14 of the Regulation for Independent Internal Auditing in Capital Market has also been submitted to Assembly's approval.

4. Voting Rights

The holders of Group A shares have right of privilege to nominate candidates for the Board of Directors and Auditor.

5. Profit Distribution Policy

Our company firstly aims to grow in present areas of production and operational facilities, to make strategic investments in new gold fields and to weigh on exploration activities within current exploration licenses. Within this framework, our Company has been targeting to meet all these investments by cash inflow derived from production areas

Within the framework of strategically targets, growth trend, investment policies, profitability and cash status and the provisions of Turkish Trade Act, Capital Market Regulations, Taxation Regulation and relevant clause of our principal contract related to the distribution of profit, Our Company will pay the dividend in the form of cash and/or unpaid shares in minimum proportion of it as basically specified by the Capital Market Board. The dividend, which will be distributed in pursuant to the decision to be taken at General Board meeting may be paid in full or in the form of unpaid shares or be determined to be as partially in cash and unpaid shares.

In parallel with the profit distribution policy of the recent years, it is always possible for the Board of Directors to decide proportion of profit distribution to be above the minimum ratio and submit this to the General Board for the approval.

Payments of dividend will be effected within the legal period based on the articles of associations.

6. Transfer of Shares

- **12.03.2010 17:46** -Following Koza Gold Operations Inc(KOZAL)'s IPO process, transactions carried out to ensure price stability between 12.02.2010 and 12.03.2010 are enclosed.

- **15.03.2010 16:09**-Board of Directors' decision taken on 15.03.2010 to increase capital by 154.17% through a bonus issue funded by 2009 profit and distribution of 20.32% of 2009 profit as a cash dividend and this is to be submitted for the General Board Meeting for approval.

Cash dividend of 27.500.000 TL is to be commenced as from 24.05.2010 and bonus issue is to be distributed after said shares being recorded by Capital Market Board

According to our financial table covering accounting period of 01.01.2009 - 31.12.2009 prepared within the framework of CMB's Circular Serial XI no:29, and in compliance with International Financial Reporting Standards and audited by Basaran Nas Independent Auditing and Chartered Accountancy and Financial Consultants A.S.(a member of PricewaterhouseCooper) net term profit has been 146.819.752 TL. Our proposal for profit distribution prepared in parallel to our company's investment and financial policies, profitability and cash status is given below and payment of dividend is foreseen according to decision to be taken at General Board Meeting.

Conforming with Capital Market Act and the arrangements of Capital Market, distributable profit of 134.354.148 was derived after deduction of 3.130.000TL being 1.set Legal Reserve Fund, which is required by the provision of article 466/1 of Turkish Trade Act and past term losses of 9.335.604 TL. And by adding 948.020TL of donation thus forming 1st dividend base of assesment and for the reason net distributable profit calculated in legal records as to be 152.598.833.15TL;

It was unanimously decided to propose following matters at General Board Meeting

Calculated in compliance with Capital Market Board procedures. Of the net distributable profit of 135.302.165TL added donation, which 1st dividend will be calculated;

Allocating shareholders of gross 27.500.000TL 1st Cash Dividend, and second bonus dividend of 92.500.000.TL totaling dividends of 120.000.000.00TL., 10% II. Set Reserve Fund of 11.700.000.00TL and arrear of 2.654.148TL as to be allocated for Extra ordinary Reserve, and distribution of gross cash dividend of 27.500.000.TL is to commence as from 24.05.2010.

It was unanimously decided to propose following matters, based on our legal records; allocating shareholders gross 27.500.000TL 1st Cash Dividend and second bonus dividend of 92.500.000TL, 1st Set Legal Reserve Fund of 3.130.000TL as required by article 466/1 of Turkish Trade Act, allocating 10% of II set Reserve Fund, and arrear of 20.898.833.15TL to be allocated for Extraordinary reserve. The sums will be met by current year Legal Profit 152.598.833.15TL.

- **18.03.2010 13:15**-We have signed an agreement with a refinery firm based in Turkey for a period of one year to conduct refinery process, which has been done abroad.
- **31.03.2010 14:39**-Resolution of the Board of Management dated 31.03.2010 and no:2010/10 for amendments of articles 6, 7, and 10 of Articles of Association and draft amendments for mentioned articles are enclosed as follow:

Amendment of article 6 to increase our company's fully paid capital of 60.000.000.TL by total of 92.500.000TL to 152.500.000TL to be met by from 01.01.2009-31.12.2009 profits ; amendement of article 7 to ensure approval of Company' board of management for related party transactions to which Company and group companies, board members and officials are party to, and amendment of article

10 in relation with Auditors and Duties to form an auditing committee and ensure its function in pursuant to Corporate Governance Principles published by CMB and to apply these changes to CMB's approval for these changes.

- **31.03.2010 16:04**-Board's decision in relation to Capital Increase

Draft amendment in relation to Article 6 "Capital and Type of Shares" is enclosed.

- **01.04.2010 14:04** - Signing of an Independent Auditing Agreement

A decision was taken to appoint Basaran NAS Independent Auditing and Chartered Accountancy Financial Consultancy Inc. (a member of PricewaterhouseCoopers) and submit this decision for the General Board's approval.

- **02.04.2010 15:42**- Purchasing of a new field

Within the exploration activities around Ovacik, Koza Gold operations has identified gold containing quartz vein, which is 1.3km length and 14 meter thick (maximum thickness is 50 meter). Approximately 400 meters of mentioned mineralization is located at the area owned by Dogu Akdeniz Minerals Industry and Trade Co.Ltd. Following negotiations with Dogu Akdeniz Minerals, royalty agreement was signed and said property has fully come under the ownership of Koza Gold Operations. MTA has previously had 6 shallow drillings in this area. MTA has intercepted 7 meter, 5.73g/t ore in these drillings. According to the results of exploration and analysis conducted by Koza Gold so far, it is thought mineralization continues deeper with potential grade increases to depth. Koza Gold aims to achieve the existing potential by speeding up exploration activities on the area. Upon start of the operations, it is planned the ore mined in vicinity of the Ovacik be transported and processed at the Ovacik Plant, which is currently operating.

- **19.04.2010 11:53**- CMB APPROVAL FOR AMENDMENT ON ARTICLES OF ASSOCIATION

Amendment of article 6 titled; "Capital and Type of Shares"; inclusions of article 7/A titled; "Related Party Transactions", Article 7/B titled; "Committees attached to Board Management", and article 10/A titled; "Auditing Committee" on the Articles of Association have been found appropriate by Capital Market Board of the Republic of Turkey on 16 April 2010, ref .no:10/329. The letter is attached

- **25.06.2010 10:02- About the news circulated within foreign data resources.**

There has been news circulated within some foreign data resources that we have authorized Investment companies to enter into 20 million US\$ deal covering Azarbaijan, Kazakhsitan, Kyrgyzstan an Uzbekistan. This is the result of a misunderstanding and it does not reflect the truth.

Although, it is quite possible for us to take an interest in domestic and international investments as part of our growth target policy, we have not signed any contracts or entered into any deals in authorizing investment companies in this regard.

- **28.06.2010 15:03- PURCHASING OF A COMPANY**

Our Company Koza gold has completely purchased Newmont Altın Madencilik A.Ş., a subsidiary of one the world's biggest and leading gold producing company Newmont Mining Corporation. Newmont altın has been operating in Turkey since 2002 and Koza has purchased entire company on 28 June 2010 for the amount of 8.5 million US\$ including 63 licensed areas, all gold projects and research data obtained as the result of its activities throughout Turkey. As agreed on, of the contractual price of 8.5 million US\$; 3 millions\$ will be paid immediately and second payment of 3 million US\$ will be paid when production begins in Diyadin and 2.5 million US\$ will be one year after the commencement of production. With this agreement, royalty agreement with option signed with Newmont Altın on October 25, 2008 for the Diyadin project has been cancelled. There will not be royalty payment for the Diyadin licence after commencement of production.

Data regarding some of the important exploration results are summarized below:

the project is in an important porphyrial gold and copper belt. Limited exploration and drilling activity results show up to 6.04 gr/t gold and 1.32% copper figures

Another project in the same porphyrial gold and copper belt is located approximately 40 km west of Koza Gold's Mastra Project. Limited exploration and drilling activity (total 19 drillings) in that region indicates 125m @ 0.69 gr/t gold (24.2m @ 2.39 gr/t gold in 125 m zone).

Results obtained from the 50 rock samples taken from the north of a vein that is identified from studies at 3 fields in West Anatolia result in 4.27 gr/t gold and 49 rock samples from the south of the vein result in 1,59 gr/t gold

In 63 licensed areas located in the far west and far east of Turkey and generally neighboring to very important sites owned by Koza Gold, Newmont Gold Company's research team has so far obtained very high anomalies in terms of gold and copper and most of these fields have potential to be transformed into development projects and operating mines.

11. Public Disclosure of Persons who provide information from inside

The persons who can reach to the information, which may be in the nature of effecting the value of company's capital market instruments may be identified in Activity Report as the persons holding offices in Board of Management, Members of Auditing Committee and executives therefore who can be in position to learn from inside. In order to maintain balance between transparency policies and protecting investors' interests with informing public fully and accurately, it should be significantly emphasized that all company employees and directors must comply with legal arrangements in using information obtained from inside. All employees and directors should not directly or indirectly use the company related inside information and they are fully aware of all the limitations to the legal arrangements and the nature of information and they act in accordance with these limitations and prohibitions.

SECTION III – STAKEHOLDERS

12. Informing the Stakeholders

Koza corporate governance practices secure the stakeholders of the procedures, monthly arrangements and their rights arranged by mutual agreements. Company employees, partners and third person or institutions that have business relations can directly communicate with company directors any proposals or violations on this matter.

Stakeholders are being informed through e-mail or telephone on the matters related to themselves or company-related issues.

13. Stakeholders' Participation in the Management

Employees' participation in the management is realized through the periodic meetings conducted within the Company and target defining and performance assessment meetings held each year.

14. Human Relations Policy

Company's Recruitment policy is defined with priority given to development of local region. There is a recruitment process starting from nearest village neighboring the mine site. When there is need to recruit a personnel, according to the nature of position required, candidates are assessed from the nearest village then to nearest towns and provinces. If no suitable local candidates are selected, nation-wide candidates are sought.

As the gold mining industry is new sector in Turkey, it is sometimes difficult to find qualified personnel. Newly graduated personnel who are possessed with required qualifications are selected and when they are employed, on the job training occupational training have been provided.

As Koza respects the people in gold mining sector, it has been a choice and priority of those who received training in this sector.

Considering the mining industry, the workforce recycle has been on low levels, is a clear indication of employee satisfaction as well as good implementation of company's human resources policy.

15. Information on Customer and Suppliers Relations

As part of our Company's main business activity, doré, which contains gold and silver are produced and sent to refineries to be refined. All marketing and sales works are carried out by the refineries.

16. Social Responsibility

Our Company, while operating, shows great care for the principles of transparency, values its employees and locals and continuously develops itself and follows and implements technological changes. The company has been involved in to concentrate on the problems of local communities and has produced and continues to produce number of projects to assist their economical as well as social developments. As a part of its "Social Responsibility", Koza Altın İşletmeleri A.Ş has adopted attitude which will provide local region with highest economical and social contribution.

SECTION IV – BOARD OF DIRECTORS

17. Structure, Formation and Independent Members

Company's Board of Directors consists of 5 members, elected by General Board.

Hamdi Akın İpek	Chairman
Cafer Tekin İpek	Vice Chairman
Melek İpek	Member
Pelin Zenginler	Member
İsmet Kasapoğlu	Independent Member

18. Qualifications of Members of Board of Directors

Entire members of the Board of Directors have vast knowledge backed with education and experience and exemplifying professionals in the sector as well in the world of business.

19. Company's Mission and Vision and Strategic Goals

Our Vision

To be the first Turkish international company in gold mining sector.

Our Mission

To carry out gold mining operations by using best available technology and displaying highest environmental performance and showing respect to local people in a mutual trust.

Our Strategies

- To be one of the most important international gold producer in world's gold market.
- To further develop current Environment and Job Safety standards.
- To increase annual gold production to 1 million ounces.

20. Risk Management and Internal Control Mechanism
